# The Power to Customize Your Kiosk!

You can **brand the APM kiosk with your logo** and your custom products and service. You can also change the interface colors, looping attract movie, and even the graphic that is around the monitor. That isn't something you can do with other kiosks. The consumer knows the APM as your kiosk, not Lucidiom's — this goes a long way for retailers in attracting and retaining a loyal customer base. Our two APM kiosks are available in both Standard and EQ Pro. Moreover, the APM 2700 has an extra bright 17" screen, which can be angled up or down, and inside — the fast Core 2 Duo processor, lots of RAM and a big hard drive make this kiosk **a powerful piece of equipment.**
